Disclaimer
This is not an official walkthrough. The game has a lot of choices that lead to different scenes or variations of scenes. The walkthrough is a result of me playing through the game many times, but I may have missed something.

Notes
The game uses a Good/Bad system. Some choices increase bad or increase/decrease good points. Some choices again require a certain amount of either bad or good points and will not show up unless met. As far as I know there is no point yet in having few points in either good or bad. Note that the amount of points you have in either good or bad may also change some scenes a little. In addition there are some key decisions along the way, but most are pretty obvious.

In this walkthrough *scenes* are considered anything where genitals are being used or touched directly. For instance, isn't Ashly doing a daring pose for Dave considered a scene.

Optimal path
Good:11 Bad:22 Scenes:11

The optimal path tries to get the highest amount of good points, bad points and scenes. It ends with:
You’ve broken up with Eric. Bad Ashly and Bad Eva on good terms and meeting the gangbangers. Eric’s dad as Ashly’s sugar daddy with a future date. Doug as a potentially future boy-toy for Ashly. Ashly working at the bookstore (and curious about anal?). Ashly friendly with Jessica. Tyrone as a future sexual partner?
