Holiday Special Walkthrough

The Holiday Special is a standalone game, meaning you don't need the original episodes to play.

The gameplay is non-linear, meaning you'll have to replay each series of choices to see all content.

Daytime Choice

You can:

- Help mom in the kitchen
- Go sledding with Alice
- Decorate the Christmas tree with Tracy

You'll get a night scene with the girl of your choosing.

Nighttime Choice:

- You can either go to sleep instantly to trigger the events corresponding to your daytime choice, or go and check out the sauna first with aunt.
- If you go to check out the sauna, you'll have two options to choose from with aunt. Pick whichever you prefer.
- After the sauna scene, you'll get back to the MC's room, with the only option left to sleep, triggering the event related to your daytime choice
