Walkthrough of Lust Man Standing

General Tips

**Talk to people and don't be an asshole**
Dialogues are an important aspect of the game. You can start a conversation with anybody by clicking on their head. By carefully choosing your dialogue options, you can gain favor or disfavor with each character. Characters will remember your actions with other characters that they know, so you’ll need to be mindful of your choice. There will be rewards and consequences based on your actions.

**Click on things to interact with them**
Look around each location for interesting things. Try to search around with your cursor all over the place and when your cursor changes, that mean you can interact with it.

**Don’t forget to use your items**
This is a point and click adventure game after all, so there will be puzzles that can be solved by using a combination of items in your inventory. Just drag the item from your inventory to the object you want to interact with. You can also right click on the item to examine it.

**Travel to different places**
Using your map, you can travel to different locations in the game. You can move around some places by clicking on the lower right or left corners of your screen.

**Don’t forget to eat**
Since we’re in the apocalypse, money is useless, but food isn’t. You’ll need to eat and gather food to keep yourself alive. Large calorie will be used as a unit to keep track of how much food you have in your inventory. You can also use food calorie as a currency to trade for items and other favors.

**Sleep will replenish your energy**
Traveling to different locations will make you tired. Make sure that you get enough sleep so that you can live another day.

**Don’t forget to use your sex and spy abilities**
Dragging these abilities from your inventory to the object you want to interact with will open up more options for you. Sex ability will open up sexual dialogues and spy ability will allow you to peep behind closed doors.

**Scavenge for supplies**
Use your map and go to the city to search for supplies. You have the option to either search a random location in the city or search that particular place for food. Searching random locations in the city could yield potential random events as well as finding new items and secret cards. However, the secret cards are very hard to find, so get your magnifying glasses ready. But I do hope the images on the card will make your time worthwhile.

Wake up at the hospital
You find yourself lying on a hospital bed. There’s a girl on the floor, click on her to move closer. You can start a conversation by clicking on her head.

During the conversation with Kaylie, make sure you do as she said to gain favor with her. Once she sees that you’re not infected, don’t be a pervert and expect sex right away. She doesn’t like that.

After your conversation with Kaylie, you need to get dressed before you can leave the hospital. Click on the wardrobe to get dressed.

*Hint: Before you leave, search around the hospital room for supplies.

While standing in the living room, click on the lower right corner of the screen (indicated by the green arrows) to walk around the apartment.
Start a conversation with Kaylie. During the dialogue, show Kaylie that you still care about your own family even though you lost your memory. Do not attempt to kiss her just yet, but instead try to comfort her with a hug.

Click on your bed to go to sleep.

Start of a new day

In this episode, you’re free to explore different events in any order you wish. So you do not need to follow the exact order that I listed the following events. I’ll post the best dialogue options soon. There are so many dialogue options, I’ll have to go through each one of them.

Once you killed the biter, Elizabeth will have a conversation with you.

If you choose to help her, you will need to inspect the body of her friend Sarah. Elizabeth won’t like it if you take off Sarah’s undies and put your nose up to her private parts, so save before you want to explore Sarah’s body. Look down at her legs and you’ll find that she has been wounded by the biter on her right leg.

After your conversation with Elizabeth, she will ask you to help Sarah by finding medicine for her from the hospital. If you choose to leave and go to the hospital to search for medicine, you will return to the dorm to find Elizabeth dead on the floor. In order to save Elizabeth, you will need to kill Sarah before she turns and attack Elizabeth. You can use any of your weapon on Sarah. Just drag it from your inventory to Sarah’s body.

The inside of the van is too dark to see, so you’ll need to use your flashlight. Only then will you be able to see and pick up a new pair of binoculars. You can use the binoculars on the balcony of your master bedroom. If you do it during the daytime, you will be able to take a peek at one of the new character coming next episode.

The quest to find Elizabeth sister will continue in Episode 3.
