Guide introduction

This is the guide of the Bastard Girls game, created by @Leocid2. You can find this game on Patreon.

If you like the game, please consider to support the work.

In the game unfortunately there isn’t a list about the quest, but they are there anyway. Also, the navigation can be a little bit weird for some of you at the first times, so this guide focus on these things.

Disclaimer! I do not take responsibility for any error or fault regarding this guide. I try my best to cover everything in the game, but as I’m a human I might make mistakes. Every mistake will be corrected if anyone report it to me via PM here.

As I’m not a native English speaker, sorry for any spelling/language mistake.

Gameplay

In this game you have to seduce as many girl, as possible. But some girls will require time and work to achieve. Beside that, you have to work, because you have to pay sometimes, and sometimes that won’t be cheap. Also, you need to go to the school and study, because your school performance affects on the girls too. And beside everything else, you should prepare yourself for the fights… If those will ever come.

Oh, and most importantly, just enjoy the scenes.

While you playing, you can talk, flirt, date with some of the girls who are available. Also, you can give them presents and some of them will even study with you. During these activities, you’ll be able to get some affection points for that girl. Also, if you want too much, you can lose some. Each activities need some affection points, and of course if you want to have sex with them, you have to achieve high affection.

The game only display a heart icon, which shows the affection, but the full red heart only mean 100 affection. Of course, some of the activities need much more affection, and you can get that too. While the display won’t shows the affection above 100, the game will continue to count it.

In the first times the navigation and the map system can be a little bit weird, so there is some picture and description in this guide which hopefully can help you walk through the city and reach your destination. To check it, go to the Map section.

Prologue

First you get a letter, and ask if you want to go to the colleges. And of course you want to go… right? Speak with the principal and ask everything you want. Then leave her office and meet Katerina and Sophie. As you leave the school you’ll meet Kyo too… sort of. On the roof click on Sophie and talk with her. Now meet Carol, Sasha and Elena. From now on, it depends on you what will happen. But I’m sure a plenty of things with happen.
The main part of the GUI is always on the top of the screen. The following icons are the most important for the game:

- The day of the week, and the day of the month. It's important for the school and other activities.
- The time of the day. Can be morning, noon, afternoon, and night.
- The girls list, and the level of affection.
- Item list, that you can buy from Karmen's shop.
- Study points
- Money
- As far as I can see, there isn't any use for this in version 0.10

An average day

In the game a day is split up in 4 parts: Morning, Noon, Afternoon, Night

Every day, you'll wake up in the morning in your room (or in a room later). You can choose to go to the girls' room (if you dare), or go to the bathroom (to spy, if you dare). Otherwise you can go to the kitchen to eat your breakfast. In the kitchen at first, it's only Sophie (you can eat breakfast, do morning sport or take a shower later on), but later on Miranda can give you breakfast too. You can't leave the house without breakfast!

After your breakfast, from Monday to Friday you'll be in school, where one of the three teachers will teach you something. Occasionally you'll be assigned to group work with one of the students (or later with Olivia), where you can get some study points.

At noon, you'll be at school, but your class finished, so you can go anywhere in the school you want. You can go to the corridor, or to the principal's corridor, but aside from the tasks, there are just girls who will masturbate. You can go to the teacher's room, to talk with them, or to meet with Olivia later on. You can visit the Gym, where there is not much to see at first, but later on, after Elena's questline, there will be interesting
things. And last but not least, you can go to the cafeteria where Carol, Sasha and (most of the times) Elena will wait you to spend a little time with you, so you can get some affection.

After that you can continue to explore the school, or you can go home. In the afternoon, you can study on your PC (you’ll study until night), you can visit the girls’ room for some fun (if you dare), you can check if somebody waits for you in the kitchen, or in the living room, you can go to the roof to spend some time with the girls there (you’ll spend your time there until night) and last but not least, you can go to the city to explore it, and such.

At night at first you can’t go out of your home, but later on you can go to the club, at home you can check the girls’ room (if you dare) or the bathroom for spying. And of course, you can sleep.

At the weekend the only difference is that after the breakfast you’ll be in the afternoon immediately.

**Quests**

- Next time you are there alone with Katerina you can lick her pussy *(study points and affection with Sophie will greatly suffer)*
Points

Affection points
As you can read above, one of the points is the affection points. Each girl has their own affection level, and you have to go the points for each one to achieve new things. There are only some of the girls with who you can go further, and those are the girls who have the heart icon next to their image in the menu.

For Sasha, Carol and Elena, the most points you can get while meeting them in the cafeteria at school. For Sophie, the events gave the most points, but later on you can meet her in the club at night, there you can get more points. For Miranda, the club will be the solution, there you can get plenty of points. For Olivia, her event will give the points.

To detailed description, check the girls section.

Study points
The other points is the study points. You need high study points, because at the end of the month you’ll write the exam and if you fail, then every girls affection will greatly suffer. On the other hand, if you pass the exam, a task will open for you, and also the girls affection will be increased.

You can get study points from:
- Be in study group in school (5 points)
- Be in study group with Olivia in school (10 points)
- Study at home on your PC (5 points if you are fresh, 3 points if you are tired)
- Study with one of the girls in the cafeteria
  - Carol – 6 or 8 points depends on if you’ll have sex with her during the study
  - Sasha – 5 points
  - Elena – Don’t study with her, -8 points

Work
At first you can’t work, but shortly after you have to start working, because you have to spend some money on the dress, the gifts, the dates and items. You will have two option where you can work, one will open immediately after you have to work, the other will open later on.

Pizza restaurant
The pizza restaurant work will be available after you talk with Lady Anais first (when she asks one million dollar). You can work here in the afternoon to get some money. Usually you’ll get $80 for one day, but you can get some tips from the girls.

If you refuse the extra service for a couple of times, they save those money, and you can get it at once. So for example if you accept it for the first time, you’ll get $50 tip, but if you refuse it 3 times, and the next time you accept it, you’ll get $200. You can get more than $200 no matter how many more times you refuse it.

Spa
The spa work will be available after Leonora visits you, and then you visits the spa. There will be a scene with Regina, after that you’ll be able to work at the spa. There you can earn $120 for one day.

Girls
In this section we’ll only write the activities that are not in the tasks. There is a short description about the girls, and the the way you can increase (or decrease) the affection and the sex (tasks not included).

Maps
There are two type of maps in the game, the city map and the map of each buildings and room (interior map).

There are two color icon in the city map, red and blue. The red leads you to the other parts of the map, the blue leads to the different available places on that part of the map.

In the following part, we’ll check every part of the city, how can you reach each part, what can you find there, and the parts of the buildings.

There are links in the list which moves you to that part of the map.
