The Promise 0.10 by Xagrim's Gameforge

Content:

- Change some images in the kitchen and for breakfast
- The shop has now more stuff
- Rework some of the old sex and jogging scenes from RPG Maker
- You have now more options when you go jogging
- More sex options with your wife
- 95% from the "old" stuff of the RPG Maker version are now in the game
- You can now visit your wife at work

Gameplay:

- Now you can see in the stats screen how many points are needed for the next level
- Change a lot of variables that make it **necessary to starting a new game!**
- Now you see on the map where Michelle and Lisa are
- Now you see with which options in dialogues you can raise relationship and corruption (see tutorial for more)
- Add more hidden stats
- The game has now two tutorials 😉
- Now you can see a little bit easier when you reach a build ending for some scenes (i hope)
- Added the inventory
- Rework the shop

Bugfixing:

- The fotoevents should work right now
- Fix some dialogue bugs in the kitchen
- Fix smaller bugs
