

ThoughtsOfInfinity v0.1 -demo walkthrough

There will be four essential variables in the game system

Jescorru= Jessica corruption points

Jesgood= Jessica moral points

Albpoints= Relation points of (Jessica with Alberto)

Egopoints=Relation points of (Jessica with Egor)

What you must know:

-Every choice will lead to different routes and events of Jessica's life

-NTR is optional in the game and can be neglected through your choices

(The walkthrough will tell you about it through the game)

-The walkthrough will be divided in parts in the next updates (Corruption route, moral route, Alberto path, Egor path...)

-The phone menu contains a guide for main characters in the game

-The game can be played otherwise with different orders (except related events)

-There is a lab in the map in which you can talk to a doctor to know more about the game story
